

## Workshop 2: “Profiling” with Asset-Map

Presenter	What was good?	What can be added?	What can be removed?
Presenter	What was good?	What can be added?	What can be removed?
Presenter	What was good?	What can be added?	What can be removed?
Presenter	What was good?	What can be added?	What can be removed?

After listening to others, what should I add to improve my own profiling skills:

What should I avoid or remove from my profiling process?
